

Luis Eduardo Sagnay Pilamunga

The image shows two web-based development tools. The top tool is the XML Validator at <https://codebeautify.org/xmlvalidator>. It displays an XML snippet for a list of chickens. The bottom tool is the JSON Editor Online at <https://jsoneditoronline.org/#left=local.vuota>. It shows a JSON array of chicken objects. A small window titled 'Sin título: Bloc de notas' (Untitled: Notepad) is open over the JSON editor, displaying the XML snippet from the top tool. A red error message is visible at the bottom of the JSON editor: 'Quoted object key expected but got '[' at line 2, column 1'.

XML Validator

```
1- <chickens>
2-   <chicken>
3-     <id>11</id>
4-     <name>Pepito</name>
5-     <color>Black</color>
6-     <age>3</age>
7-     <isMolting>true</isMolting>
8-   </chicken>
9- </chickens>
10
```
