```
1 package ec.edu.espe.view;
2
3 import ec.edu.espe.taxlib.controller.Tax;
4
5 /**
6  *
7  * @author eduardo garcia
8  */
9
10 public class Sales {
11
12     public static void main(String[] args) {
13         float amount = 10f;
14         double salary = 4000;
15         System.out.println("The amount-->"+amount);
16         System.out.println("The total amount-->"+Tax.computePvP(amount));
17
18         System.out.println("The salary-->"+salary);
19         System.out.println("The total income tax-->"+Tax.baseTaxes(salary));
20         System.out.println(Tax.baseTaxesCalculation(salary));
21     }
22 }
23
```

Output

eduag - C:\Users\eduag x TaxClient (run) x

run:

The amount-->10.0

The total amount-->11.2

The salary-->4000.0

TAX BASE TOTAL:43464.0

4516.2

Enter the number of charges:
