Create a database user using a username and password. Users will be given the read and write to any database [privileges](#) by default. You can update these permissions and/or create additional users later. Ensure these credentials are different to your MongoDB Cloud username and password.

Username

username01

Password

xxxxxxxxxx

Autogenerate Secure Password

Create User

MS Cluster Provisioning... We're putting final touches on your cluster.

Quickstart

Where would you like to connect from?
