

The screenshot shows a Google Docs interface with a document titled "WORKSHOP-12". The document content is a Java code snippet for a class named "Person". The code defines attributes "nombre", "edad", and "direccion" and includes methods for setting and getting these values. The code is as follows:

```
public class Persona {
    private String nombre;
    private int edad;
    private String direccion;

    public void setNombre(String nombre) {
        this.nombre = nombre;
    }

    public String getNombre() {
        return this.nombre;
    }

    public void setEdad(int edad) {
        this.edad = edad;
    }

    public int getEdad() {
        return this.edad;
    }

    public void setDireccion(String direccion) {
        this.direccion = direccion;
    }

    public String getDireccion() {
        return this.direccion;
    }
}
```

The document is viewed in a web browser, and the taskbar at the bottom shows various application icons and the system clock indicating 16:56 on 03/12/2023.
