Connect to Cluster0

You need to secure your MongoDB Atlas cluster before you can use it. Set which users and IP addresses can access your cluster now. [Read more](#)

1. Add a connection IP address

✓ An IP address has been added to the IP Access List. [Add another address in the IP Access List tab.](#)

2. Create a database user

This first user will have [atlasAdmin](#) permissions for this project.

Keep your credentials handy, you'll need them for the next step.

Connect to Cluster0

Connecting with MongoDB Compass

I don't have MongoDB Compass installed

I have MongoDB Compass installed

1. Choose your version of Compass

1.12 or later

See your Compass version in "About Compass"

2. Copy the connection string, then open MongoDB Compass

mongodb+srv://frederick:<password>@cluster0.gteqor0.mongodb.net/

Replace **<password>** with the password for the **frederick** user.

When entering your password, make sure that any special characters are [URL encoded](#).

Create Database

Database Name

OrganiventDB

Collection Name

Artist

☐ Time-Series

Time-series collections efficiently store sequences of measurements over a period of time. [Learn More](#)

➤ **Additional preferences** (e.g. Custom collation, Capped, Clustered collections)
