10. Eduardo David Garcia Romero

```java
13          int id = 1;
            String name = "Mateo";
            String phoneNumber = "0953122042";
            String email = "mateojgarciag@gmail.com";
17
18          System.out.println("id -> " + id);
19
20          System.out.println("addition of " + addend1 + " and " + addend2 + " is " + add(addend1, addend2));
21      }
22
23      public static int add(int addend1, int addend2){
24          addend1 = 50;
25          return ( addend1 + addend2);
26      }
27
28  }
29
```

```
run:
id -> 1
addition of 20 and 30 is 80
BUILD SUCCESSFUL (total time: 0 seconds)
```
